Profile

I am a front-end developer with **two years of experience** working on web technologies such as **React, Next.js 15**, **HTML**, **CSS**, **JavaScript**, **RESTful APIs**, and **Tailwind CSS**. I specialize in building responsive and user-friendly interfaces, combining strong technical skills with a solid understanding of UI and UX design. I hold a Bachelor's degree in Computer Science from the University of Annaba and am currently pursuing a **Master's degree in IT Security and Networks**.

In addition to front-end development, I have hands-on experience with back-end technologies, including Node.js, Express.js, and databases like MongoDB and MySQL. My goal is to create efficient and reliable applications that meet user needs while ensuring security and performance.

I am passionate about **learning and improving my skills** to keep up with the latest developments in the tech industry. I take pride in delivering high-quality work that enhances the user experience and meets project objectives.
